CHANDAN KUMAR

Sr. Software Engineer | FrontEnd | FullStack Development

+91 8860503220 chandankumar.webdev@gmail.com Linkedin Github Gurugram, India

SUMMARY

Results-driven FrontEnd & FullStack Developer with **5** years of experience in building dynamic web applications using ReactJS, VueJS, Node and modern JavaScript frameworks. Skilled with strong problem-solving, leadership, and mentoring abilities. Proven track record in optimizing application performance and driving user satisfaction. Highly adaptable and detail-oriented, always learning and consistently delivering clean, efficient, and high-quality solutions.

EXPERIENCE

Senior Software Engineer

Fieldassist

02/2024 - Present Gurugram, India

- Spearheading full-stack development of the ***Distributor Management System*** *(DMS),* a large-scale enterprise app for invoices, orders, schemes, claims, inventory, and ledger management used by thousands of distributors.
- Delivered key modules like **RBAC**, translation, and target & achievement, updating over 300 files to enhance security, scalability, and performance.
- Contributed 40% to backend development, including APIs, caching, queues, microservices, and SQL/NoSQL optimizations.
- Implemented **barcode scanning**, virtual inventory and custom reports, improving operational efficiency by 60%.
- Conducted pull request reviews, provided knowledge transfer sessions, and mentored backend developers on front-end practices.
- Enhanced code quality and delivery speed by introducing Storybook for UI testing, writing API and utility test cases, and leveraging **AI tools** like Cursor and Windsurf for rapid development.
- Served as **Scrum Master**, ensuring sprint planning, backlog grooming, and timely releases.
- Collaborated with product, QA, and customer success teams for seamless delivery and issue resolution.
- Implemented mixins, custom react hooks and structured argument objects, improving code reusability and reducing bugs across multiple modules.

Software Engineer

Nityo Infotech

07/2023 - 10/2023 Gurugram, India

- Led technical training and mentorship for 3 junior developers on the **Samsung SDS** SingleID project, which resulted in a 100% on-time project delivery record and improved team-wide code quality.
- **Optimized application performance**, reducing load time by 10% and increasing user satisfaction through improved speed and UX.
- Delivered more than 10 production-ready features end-to-end, collaborating with cross-functional teams to enhance product stability.
- Adapted quickly to new project requirements, **contributing from day one** to accelerate release cycles by 15% and improve overall team productivity.

Software Engineer

Innostax Software Labs

04/2021 - 06/2023 Gurugram, India

- **Led a team of 2 developers**, driving timely delivery of key modules and ensuring 100% adherence to project deadlines through effective leadership.
- Upgraded the application from Vue 2 to Vue 3, resulting in significant improvement in performance.
- Optimized front-end code and reusable UI components, reducing load times and improving overall responsiveness across devices.
- Implemented Cypress test cases, decreasing front-end bugs by 40%.
- Designed and deployed **REST APIs** with efficient SQL integration, streamlining data handling and improving back-end response times by 20%.

PROJECTS

DMS (Distributor Management System)

DMS provides a mobile and web-based platform for CPG/FMCG brands to digitize, streamline, and control their end-to-end sales, inventory, and distribution operations with AI-powered analytics.

Single ID

Simplifies access, enhances security with real-time anomaly detection, and streamlines account management by tracking usage records for authorized users.

TAVA App | Privacy Dynamics

TAVA app streamlines online presence with easy-to-use frontend and backend services for individuals and businesses.
Privacy Dynamics anonymizes data for engineers and analysts using modern data stacks.

SKILLS

FrontEnd: React, Vue, JavaScript, TypeScript, Redux, Vuex, Tailwind, HTML, CSS
BackEnd: Node, Express, SQL, NoSQL
Tools: Git, Jest, Cypress, Cursor AI, VS Code

COURSES

NodeJS

Node.js, Express, MongoDB & More: The Complete Bootcamp

LLD and HLD

System Design from Basics to Advanced

EDUCATION

B.Tech (CSE)

Galgotias University

09/2016 - 09/2020 Greater Noida, UP, India

LANGUAGES

Hindi Native
English Professional
